BICYCLES, TYPE-WRITERS, SEWING MACHINES, Cash Registers and Guns Repaired. Saw Filing and Key Fitting.

J. C. RAUB JOHNSON BLOCK

## CITY HAS KICK COMING ON M'NALLY'S STREET OBSTRUCTION

The city council may have to deal with another subject in the class of acts in violation of the city ordinances at its next meeting. This time the trouble lies with the owners of property on which buildings are being built.

Charles McNally has caused the roadway on Opera Drive, in the rear of the Central school building, to be so obstructed that he has aroused the ire of Alderman Taylor, who also lives on the same street. A short time ago McNally started the erection of a house on his lot, and in digging away for the foundation the dirt and rubbish was thrown out into the street.

"The matter was brought to the attention of the mayor," said Alderman Taylor yesterday, "but so far as I know or can observe, nothing has been done to do away with the nuisance."

Said Taylor, in speaking of the roadway in front of the McNally property: "It has become impossible to

drive one way or the other on account of the pile of rubbish and dirt that has been piled up in the street by McNally, and so far as I know he has no right to obstruct the street so that he may erect his house. It seems at least that he should be required to get a permit from the city before doing such a thing.

There are others of us on that street who would like to enjoy the use of it, and I think that McNally should make some endeavor to keep the street clear. It is in the worst condition that I have seen it for twelve years. At no time during that period have we been unable to pass and repass on that street with a team, and now a team can not get in there, and if it does it cannot get out.

Then William Hughes, who is putting up a building, is building it a foot further out in the street than he has any right to. Both of these matters should be looked into by the council, I think, and I shall bring them up at the next meeting."

## WORLD'S FAIR ILLUSTRATED EDITION

SAMPLE COVERS CAN BE SEEN IN THE SHOW WINDOWS.

At C. M. Henkel's Jewelry Store and Bisbee Drug Co.—A Mammoth Undertaking.

Today there may be seen in the store windows of the Bisbee Drug company and of C. M. Henkel, the jewelers, the sample covers and size of what is to be the World's Fair Edition of the Bisbee Daily Review. The entire cover is worked in embossed lettering and hand gold leaf, with an ore car entering the tunnel. In the center of the cover will be placed a handsome tri-colored half tone of a view of the city of Bisbee, the picture at present in the sample simply showing the effect of the three colors. The book will contain 150 pages, and will be profusely illustrated with half tones of all the principal mining properties and points of interest in Cochise county and of Arizona. The fullest and most complete information will be given of the resources of the county and the progress made by Bisbee since the town was founded. The edition will be 25,000 copies, and will be distributed from the World's Fair Arizona building, thus giving it a world wide circulation. There can be no finer or better work done by the printer, the engraver, the artist or the mechanic than will be shown in this work, the object being to make it the best and most comprehensive work ever issued in any part of the country, neither time, labor or expense being spared in its preparation. Articles from the pens of the most prominent men in the Territory of Arizona and of the most prominent mining operators, with autograph signatures, will add intense interest to the columns. Orders exceeding 10,000 copies have already been received, and from the manner in which inquiries are being made for this work, it is doubtful if 25,000 copies will fill the demand. All communications intended for this edition should be addressed to the World's Fair Editor, Bisbee Daily Review, Bisbee, Arizona.

### RINGLING BROS., EXCURSION.

Special excursion rates on all lines of travel have been arranged for by the management of Ringling Brothers' World's Greatest Shows, and those who wish to go to El Paso, where this great circus exhibits Thursday, October 8, can do so at very little expense. This will be the only point in this vicinity where the show will exhibit this season, and no one should miss the opportunity to witness it. Ringling Brothers' circus has been the leading arena exhibition of America for years, but the show has never been permitted to rest upon its reputation. Although it long ago passed the point of competition, every season sees a greater and grander show. This year's performance is entirely new, and entails the combined efforts of 375 wonderful artists in the equestrian, gymnastic, acrobatic, aerial, and other line, together with forty famous clowns and hundreds of lesser lights. Six hundred and fifty horses are used and a marvelous trained animal department is presented. The circus this season is greatly enlarged by the spectacular production of Jerusalem and the Crusades, a panoramic presentation of the well known and beautiful historical narrative of the Crusades. The vast managerie has among hundreds of features the only living pair of giraffes, the first baby elephant successfully bred and reared in America, and the only rhinoceros in captivity. There is a gorgeous revival of the Roman hippodrome races, and many other stupendous features in this great circus. Circus day opens with a brilliant street parade, three miles in length. Don't fail to see it.

Too many cooks spoil the policeman's digestive apparatus.

Truth is a stranger than a good many people don't care to meet.

## ELECTRICIANS ARE STILL OUT

NOTHING IS BEING DONE LOOKING TO A SETTLEMENT.

Both Sides Continue Busy Making Statements to the Public.—The D. I. Co. Is Waiting for More Material Before Resuming Operations.

The trouble between the Douglas Improvement company and the electricians has not been settled and it is not likely to be. There has been no conference held since the men were given their time last Monday morning and Mr. Jones, of the grievance committee, says the men will not seek any such conference. For the first few days the matter attracted considerable attention and was discussed in all the resorts to the exclusion of almost everything else, but now interest in the controversy seems to be dying out.

The International-American was requested by Mr. Jones and Mr. Ganzhorn, of the electricians, to state for them that the statements published as coming from Mr. McGuire were not correct. Said Mr. Jones: "Every name on the petition we circulated was bona fide and the petition will show this. We were all on hand ready to go to work on Monday morning and would have done so had our demands been complied with. Since the 11th of September all the men received \$3.50 per day, but previous to that time some of the men had received only \$3.00. We claim that the scale presented to the company for its approval is a fair one and that both the linemen and wiremen should receive the same pay."

It is not likely that the company will do any more work in wiring the town for four or five weeks as they are needing wire. Mr. McGuire says he has applications from electricians who are ready to come here and go to work when he is ready for them.

It is unfortunate to have any disagreements between laborers and employers in any community and the disinterested portion of Douglas would be very glad if some amicable adjustment of the present difficulty could be brought about. Labor troubles are a detriment to any community and when once they begin it seems that they become catching and hard to avoid ever afterwards.—International-American.

### FOUND A TREASURE SHIP.

Sunk in Five Feet of Water With Cargo of Mexican Silver Ore. Jacksonville, Fla., Sept. 24.—Rumors of the finding of a treasure ship off Miami came today when Captain Jennings and three of the crew of the wrecking schooner Osceola filed an action for libel against the cargo of an unknown ship in the United States Court here today. With the assistance of a chart in his possession Captain Jennings has been searching for this vessel from time to time for many years. She was supposed to have gone ashore in 1835, loaded with ore from Mexico mines. She was found in five feet of water near Miami. The cargo, which has only been partly examined, has been found to consist of silver ore.

### RAILROAD CONFERENCE.

Consultation of Union Pacific Officials on Strike Situation. Omaha, Neb., Sept. 24.—President Burt of the Union Pacific and Superintendent's Clerk Cole departed for New York to consult the directors of the road concerning the threatened strike in the Rock Springs coal region of Wyoming. The men want higher wages and improved conditions with reference to their work. The strike has been threatening over a month, and the situation has been so critical that President Burt thought it expedient to consult the higher authorities.

### METAL MARKET.

New York, Sept. 24.—Bar silver, 59 3/4c; Mexican dollars, 46 1/4c.

## The Fair Store | The Fair Store | The Fair Store

### More New Dress Goods.

[MAIN FLOOR.]

Almost every day something new in dress goods gets on view here. Today some of the imported goods are ready.

Z balines are the thing for the ultra-fashionable gowns for street wear. Not the erstwhile hairy or shaggy Z balines (though we show some of these) but with a surface that suggests a velvet finish. One very handsome style has a ripple surface, with a high luster.

TWEEDS—a family name that includes near-by connections—Tweeds are for the smart tail red suit, the walking suit and for traveling dress.

THIN FABRICS for evening wear and dinner and reception gowns, or for other occasions where a "dressed" gown is required. The style of trimming and embellishment bid fair to be quite elaborate this season.

The showing in Fall goods is unfolding. Keep in touch with the dress goods saloons if you wish to see the newest of the new.

### The New in Laces And Women's Neckwear

Parading themselves again today, proud as peacocks. With the novelties are the new Irish Point laces for Fall, made in Convents during the long winter months.

Lovely deep collars, finishings, edgings and insertions. While the designs all vary, and always will, hinge on the tiny three leaf shamrock, yet no bold ever tires of them.

Look for the new little white collars Paris is wearing on gowns and collarless blouse coats—made on canvas and embroidered and appliqued with the delicate, softest colors.

### The Men

Should by now be thinking about their Fall suits. We again express our opinion quite freely, that it is unnecessary to have your suit made, unless you have money to lavish and do not care to save.

The Stein-Bloch-Smart-Clothes, made by the best journeymen tailors of the East have put thought and energy into these garments and we guarantee the fit cannot be equaled, no matter if you pay twice the amount.

Graceful Hanging, Perfect Fitting. The best of linings and the finest workmanship are only to be had in Stein-Bloch-Smart-Clothes.

THE FAIR, Frankenberg Bros. & Newman, Proprietors.

### MO. CONFEDERATE VETERANS

Columbia, Mo., Sept. 24.—The Missouri division of the United Confederate Veterans began its annual reunion here today and the city is tastefully decorated in honor of the many visitors who are here from all parts of the state. The program covers three days and is replete with interesting features. Among the prominent reunion speakers are Major General Elijah Gates, commander of the division, Senator Cockrell, Congressman Champ Clark, Congressman M. E. Benton and James W. Boyd, of St. Joseph.

### ALL QUIET IN BULGARIA.

Feeling of unrest characterizes the situation but nothing worse. Sofia, Bulgaria, Sept. 24.—Notwithstanding reports to the contrary, perfect tranquillity, almost approaching peace, prevails throughout Bulgaria. There is not the slightest evidence that the country is on the verge of war. Even the military say there is no excitement, though uneasiness prevails.

The spider has no cause for alarm when his life is hanging by a thread.

### All He Received Was Advice.

"Sir, I have made up my mind to ask you for the hand of your daughter. Will you give it to me?" "You honor me, young man, but the only thing I can at present give you is a little advice. Never make up your mind. Its existence is so extremely doubtful that a little makeup completely disguises it."—Cleveland Plain Dealer.

### More Active.

Hicks—Oh, I never even notice him any more. Wicks—Is that so? Hicks—Yes; nothing disturbs me more than a deadbeat. Wicks—Oh, they don't bother me. Ifs the live ones that make me tired.—Philadelphia Ledger.

### A Poor Artist.

"No, Willie! I couldn't advise you to enter art. Why, one paint costs me 69 cents a bucket and sometimes the picture don't bring more'n 10 cents!"—Chicago American.

Willie and Sallie. "A woman's sighs do not always indicate her weight, Willie."

"Very true, Sallie. And it's all right for a wife to reign, but not to storm."—Roller Monthly.

### A Gentle Reminder.

Clerk—Here's an order from Smith's for two quarts of berries, but it doesn't say what kind.

Grocer—Send them bilberries. They owe us over \$100.—Detroit Free Press.

### Willie's Bedtime.

Willie—Pa, if a war ship is called "she" why isn't a woman-of-war? Father—It's your bedtime, Willie.—Boston Post.
